

DAY 1: BUG01421, BUG01434

1. Send email to fingerprint, Engineering-Dev-US, cc to Alex, Resno, miya:

Update UNIX commands and Windows WMI/commands executed on scanned systems for 2015-08 (title)

Hi Team,

We need to update UNIX commands and Windows WMI/commands executed on scanned systems. Please return any "new"(never been used in our existing fp) commands following the sample. If you don't have any new command added in 2015-08 content release, also please reply the email and let me know it.

Example:

New BDNA Unix Command Summary

Command	OS / Product	Flags	Notes
acroread	Adobe Reader	acroread -version	Obtain version information for Adobe Reader.

BDNA Windows Command Summary

Command	OS / Product	Flags	Notes
w32tm	Windows OS	w32tm /dumpreg /subkey:Parameters	Obtain NTP Server information using Win32Time service for Windows OS.

Let me know if you have any question.

Please feedback.

2. Updated BDNACommandDoc.doc, check in to gitlab server. Produce pdf file and update comment on BUG01421. (BDNACommandDoc_For_2015_June_content_Release.pdf)

BUG01421:

Added new commands for 2015 August Content Release.

File changed in Gitlab server:

sequence-documentation/BDNACommandDoc/BDNACommandDoc.doc

Move to 2015-10

3. Modify build/build_env.Linux.properties: bdna.bcp.version=201510 and check in.

BUG01434:

Changed build directory to 2015-08.

File Changed in "Discover Team / Sequences 7.7" of Gitlab For 7.7.0 platform :

sequences-7-7/build/build_env.Linux.properties

Move to 2015-10

DAY 2: Load Discovered data.

(<https://github.com/caceyli/learnngit/blob/master/bdna/LoadDiscoveredDataIntoCDB.txt>)

1. Make sure last night's smoke test result is normal. (9.102)
2. Prepare Discovered Data: (ex, DataExtract.sh, gzip -f xxx.dmp, ln -s -f a b)
3. 192.168.8.45 (prod/content4me);
4. cd to /home/prod/backup/loadDiscoverData
5. sh Smoke_test_data.sh -m "emails"
6. Notify Lijun to check the result.

DAY3/4: BUG01435 Release Note drafts && BUG01539 ERD

1. **Prepare release Note drafts.**
2. **Send email to Engineering-Dev-US, cc Lijun/Amy/Jenny/miya/Alex/Resno to notify them to update mapping columns:**

Hi, all

The draft of 2015 August Sequence Release Note have been checked into gitlab server. It's available in the attachment and at gitlab server:

discover-team/sequence-documentation/Sequence 7.7.0 Release
Notes/bdna_770_2015_August_Sequence_Release_Notes.xlsx

Resno,

Please help update the Mapping tabs, thanks.

Sincerely

Cacey

3. **Check in the Updated.**
4. **Update the comment on BUG01435. (by the time handing over to QA)**

BUG01435:

2015-08 content release for 7.7.0 platform has been updated:

http://gitlab.bdnacorp.com/discover-team/sequence-documentation/blob/master/Sequence%207.7.0%20Release%20Notes/bdna_770_2015_August_Sequence_Release_Notes.xlsx

move to 2015-10 release

5. **Do ERD on my host. (<https://github.com/caceyli/learnit/blob/master/bdna/howToExpERD.txt>).**
 - a. A complete installation of latest Enterprise Sequence. (eg: smoke test machine or new one)
 - b. On my windows host:
 - c. run cmd

cd C:\work\schemaspy5.0.0

```
java -jar schemaSpy_5.0.0.jar -t orathin -db ora11g -host 192.168.9.102 -port 1521 -s  
VMST9102_BDNA_770_20 -u vmst9102_bdna_770_20 -p vmst9102_bdna_770_20 -o  
"C:\Work\Publish\BDNA_Discover_Publish_7.7.0.201508" -i "(BDNA.*)" -dp "C:\classes12.zip" -desc "BDNA  
Discover Publish version 7.7.0 with 201508 Sequence" -noimplied -norows -nologo -noads
```

- d. upload the data to [\\nas2\shared\engineering\documentation\Released\Discover-ERD\BDNA_Discover_Publish_7.7.0.201508.zip](#) (old)
[\\10.1.3.8\shared\engineering\tech_pubs\archives\Released\Discover-ERD](#) (new)
- e. update comment on BUG01539 and resolve this bug:

BUG01539:

ERD for 2015-08 sequence For 7.7.0 platform is copied to -

[\\xxxx\shared\engineering\xx\Released\Discover-ERD\BDNA_Discover_Publish_7.7.0.201508.zip](#)

LAST DAY: Smoke tests Summary & Hand over to QA

1. Email to Resno, cc to alex/miya for smoke tests summary.
2. Email to QA/Engineering-Dev-US, cc to Alex/Resno/Miya/Fingerprint:

2015 August Content Release is Ready for QA Verification. (title)

Hi All,

2015 August Sequence Release Notes have been checked into gitlab server.

For 7.7.0 platform:

discover-team/sequence-documentation/Sequence 7.7.0 Release
Notes/bdna_770_2015_August_Sequence_Release_Notes.xlsx

http://gitlab.bdnacorp.com/discover-team/sequence-documentation/blob/master/Sequence%207.7.0%20Release%20Notes/bdna_770_2015_August_Sequence_Release_Notes.xlsx

You can also find the copy attached.

This release is ready for QA verification now.

Please Note: To build sequence 2015-08 for 7.7.0 platform, please use the platform code of 7.7.0 together with the "Discover Team / Sequences 7.7" qa branch code in Gitlab.

Sincerely

Cacey
